## PROFILE

I am a graduating web developer looking for an internship to further increase my professional skills, and to gain the opportunity to learn from professionals in the field I wish to work in. I love getting lost in the world that is tech, and I am extremely excited to work in an industry that will be shaping the future. Looking to the future, I wish to help develop software and technology that will impacts peoples lives, and to help make a positive change.

## PROJECTS

### CHEWYTREE

*Two-way Marketplace*

- Designed and developed an online marketplace to allow users to buy and sell items
- Integrated Stripe API to allow for purchasing of items, alongside UltraHook webhook to allow for persistent endpoints and End-To-End TLS
- Established CRUD operations for purchasing service with PostgreSQL
- Integrated user-to-user messaging with Ruby on Rails (non-live messaging due to time restraints)
- Technologies used: Ruby, Ruby on Rails, Amazon S3, PostgreSQL, Heroku, Bootstrap, Git

### RECIPEBOOK

*Multi-user terminal application*

- Established CRUD operations with private user recipes, users cannot delete or edit built in recipes
- Integrated user authorization by allowing users to only edit and delete recipes they have made
- Users can make merge requests with their own recipes to the default/global recipe book
- The admin user can review submitted recipes to delete or push to the global recipe book
- Technologies used: Ruby, YAML, Git

## EDUCATION

### CODER ACADEMY

Diploma of Information Technology | *March 2021 - Present*

#### Relevant Coursework

- Data structures and algorithms
- Design and analysis of algorithms
- Database management
- Implementation of test-driven-development
- Object-orientated software development
- Agile-workflow

### VICTORIA UNIVERSITY

Diploma of Nursing - *March 2017 - December 2018*

Bachelors of Nursing - *January 2019 - Deferred December 2020*
